Customer Churn Dashboard

7,043	1,869	26.5%	139,131	30.5%
Customers	Churned customers	Churn rate	Monthly revenue lost	Revenue Churn Rate

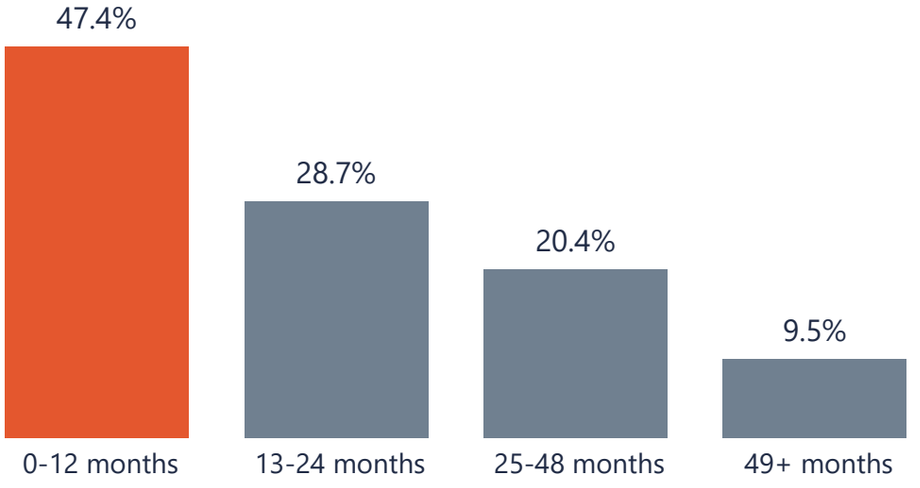

Month-to-month customers churn at 42.7%, two-year at 2.8%

% of customers in each group who churned

47% of customers in their first year churn

% of customers in each group who churned

What stands out

- More than **1** in **4** customers left (**26.5%**), but **30.5%** of monthly revenue was lost, because churners pay more on average (**74.44** vs **61.27** per month).
- Month-to-month customers are **88.6%** of all churners. Two-year contracts churn at **2.8%**.
- New month-to-month customers (**28%** of the base) account for **55%** of all churners.

Customer Churn Dashboard

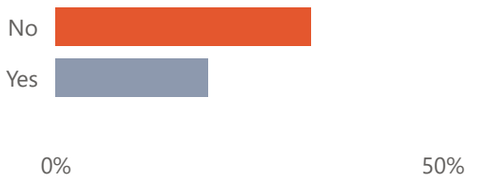

Seniors churn at 41.7%, non-seniors at 23.6%

% of customers who churned

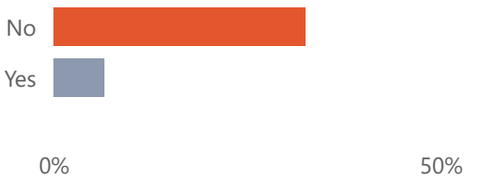

Customers without a partner churn at 33.0%, with a partner at 19.7%

% of customers who churned

Customers without dependents churn at 32.6%, with dependents at 6.5%

% of customers who churned

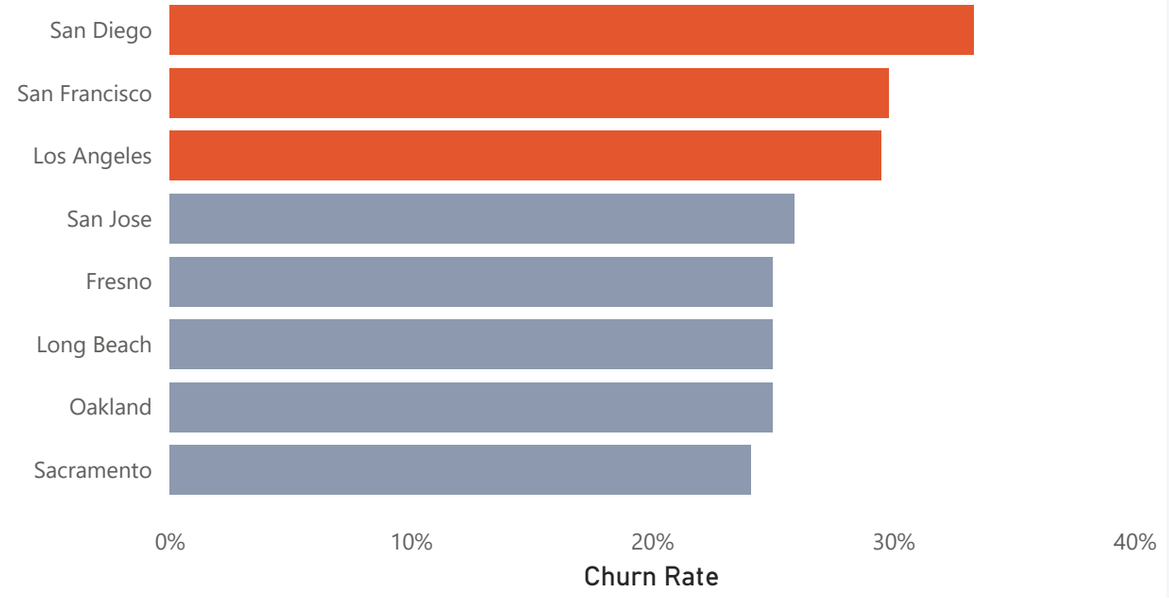

Women and men churn at similar rates (26.9% vs 26.2%)

% of customers who churned

Churn rate by city

8 cities with 50+ customers. Hover for group size

Who churns?

- **Seniors** are 16% of customers but 25.5% of churners: 41.7% churn vs 23.6% for non-seniors.
- Customers **without dependents** churn at 32.6%, those with dependents at about 6.5%. Customers **without a partner** churn at 33.0%, those with a partner at about 19.7%.
- **Gender:** Women and men churn at similar rates (26.9% and 26.2%).
- **City:** San Diego has the 33.3% churn rate and its customer count is 150.
- These describe who leaves, not why. Contract, tenure and services (next page) overlap with these groups, so none of these is a cause by itself.

Customer Churn Dashboard

Month-to-month churn falls with tenure but stays well above fixed contracts

Cell = churn rate (customers in group)

Contract	0-12 months	13-24 months	25-48 months	49+ months
Month-to-month	51.4% (1,994)	37.7% (737)	32.9% (802)	26.0% (342)
One year	10.5% (124)	8.1% (197)	10.6% (518)	12.9% (634)
Two year	0.0% (68)	0.0% (90)	2.2% (274)	3.3% (1,263)

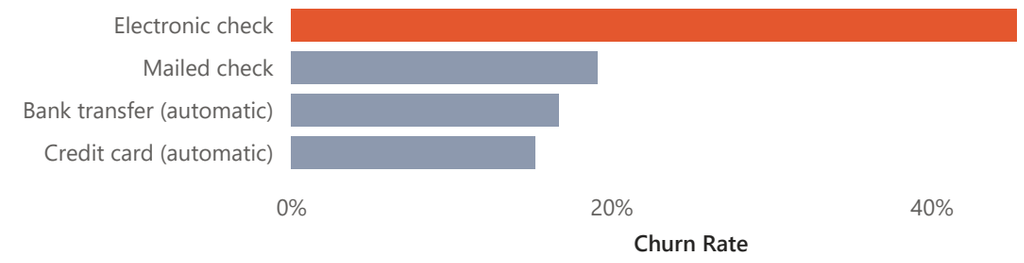

Fiber customers churn far more than DSL, even at similar bills

Blank cells mean no customers (no DSL above 95, no fiber under 35)

Internet service	Under 35	35-70	70-95	95+
DSL	36.6% (205)	21.2% (1,616)	6.8% (600)	
Fiber optic		61.0% (105)	48.2% (1,683)	32.3% (1,308)
No	7.4% (1,526)			

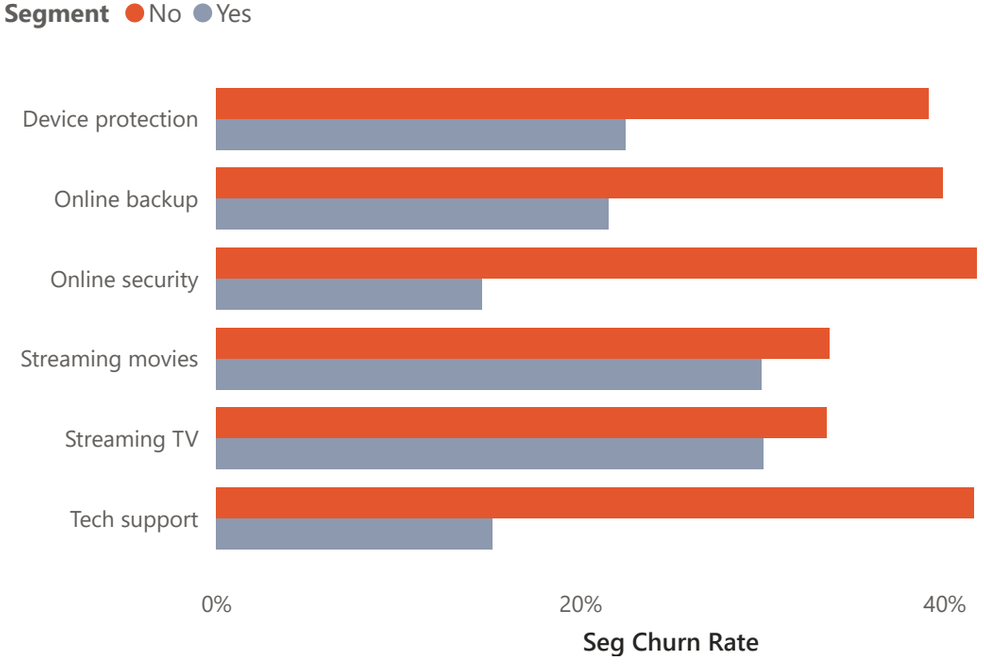

Electronic check customers churn at 45%, all others at 15-19%

% of customers who churned

Customers without online security or tech support churn nearly 3 times as often

Customers with internet service only

What is associated with churn?

- **Contract:** month-to-month customers churn at 51.4% in their first year and still 26.0% after four years. One- and two-year contracts stay between 0% and 13%.
- **Fiber:** in the 70-95 charge band, fiber customers churn at 48.2% and DSL at 6.8%.
- **Payment:** electronic check 45.3% vs 15.2-19.1% for other methods.
- **Add-ons:** no online security 41.8% vs 14.6% with it; no tech support 41.6% vs 15.2%. Streaming adds only about 3-4 points.
- These factors overlap, and customers who buy add-ons may simply be more committed. Treat them as associations, not causes.

Reason groups

% of churned customers in the current selection

Top 10 individual reasons

% of churned customers in the current selection

Reason mix by contract type

Cell = share of that contract's churners (number of churners).

Reason group	Month-to-month	One year	Two year
Competitor	33.1% (385)	36.5% (38)	41.9% (13)
Life event	3.3% (38)	5.8% (6)	
Price / charges	13.6% (158)	8.7% (9)	22.6% (7)
Product / service	22.5% (261)	19.2% (20)	16.1% (5)
Support / service attitude	19.8% (230)	24.0% (25)	16.1% (5)
Unknown	7.7% (90)	5.8% (6)	3.2% (1)

Why customers say they left

- *All 1,869 churned customers (no filters)*
- **Competitors** account for 33.2% of churners (better offers, faster speeds, more data, better devices), the largest group.
- **Product and service issues** are 22.8% and **support or service attitude** is 19.6%. The attitude of the support person is the most common single reason (192 customers, 10.3%).
- **Price and charges** are 13.0%. **"Don't know"** is 8.2%, and **life events** (moving, death) are 3.2%.
- Competitors lead in all three contract types (32.8% month-to-month, 35.5% one year, 39.6% two year), although one-year and two-year groups are small.

Customer Churn Dashboard

Highest-impact segment: Month-to-month | Fiber optic | Electronic check

1,307	60.4%	42.2%	49.1%
Customers in segment	Churn rate in segment	Share of all churners	Share of monthly revenue lost

Ten segments account for about 90% of churned customers

Segments with 100+ customers, ranked by number of churned customers. CLTV is a predicted value, used for ranking only

Segment	Customers	Churned	Churn rate	Monthly revenue lost	% of revenue lost	CLTV lost
Month-to-month | Fiber optic | Electronic check	1,307	789	60.4%	68,282	49.1%	3,209,499
Month-to-month | DSL | Electronic check	474	192	40.5%	8,776	6.3%	789,253
Month-to-month | Fiber optic | Bank transfer (automatic)	327	149	45.6%	13,062	9.4%	628,261
Month-to-month | Fiber optic | Credit card (automatic)	293	122	41.6%	10,731	7.7%	491,373
Month-to-month | DSL | Mailed check	367	113	30.8%	5,292	3.8%	448,602
Month-to-month | Fiber optic | Mailed check	201	102	50.7%	8,407	6.0%	405,148
Month-to-month | No internet | Mailed check	325	67	20.6%	1,345	1.0%	288,287
One year | Fiber optic | Electronic check	196	51	26.0%	5,150	3.7%	236,758
Month-to-month | DSL | Credit card (automatic)	185	50	27.0%	2,475	1.8%	202,035
Month-to-month | DSL | Bank transfer (automatic)	197	39	19.8%	1,824	1.3%	163,201

Where to focus

- **Month-to-month fiber customers paying by electronic check** are 18.6% of customers but 42.2% of churners, with a 60.4% churn rate and about 49% of the monthly revenue lost.
- The ten segments shown hold **55% of customers and 1,674 of 1,869 churners (about 90%)**. Nine of the ten are month-to-month.
- **Fiber isn't just payment issue:** month-to-month fiber customers churn 41.6% to 60.4% whichever way they pay, while month-to-month DSL customers range from 19.8% to 40.5%.
